

VISTA®

is a blend of select turf type tall fescues carefully chosen to make your lawn the envy of the neighborhood!

VISTA®

provides a lush uniform dark green turf. It has a moderate rate of vertical growth which makes it an excellent choice for homes, athletic fields, or other low maintenance turf areas.

VISTA®

is extremely durable, long lasting and drought tolerant with a uniform appearance.

VISTA®

has an added bonus, excellent performance under drought conditions!

VISTA®

can be seeded in the spring or fall.

Soil testing is suggested prior to seeding.

Recommended rate for new lawns is 400 pounds per acre or 10 pounds per 1000 square feet.

Success depends closely upon how well the soil and site have been prepared!

Excellent for over seeding as it establishes quickly.

Rate for over seeding would depend upon desired results.
